MANTIS

THE MARCOS MANTIS, FLAGSHIP OF ONE OF THE LAST REMAINING BRITISH SPORTSCAR COMPANIES, IS TRULY WORTHY OF ITS POSITION AMONGST THE WORLD'S SUPERCARS. WITH ITS STYLISH BUT BRUTISH LOOKS, STUNNING HANDLING, RELIABILITY AND PHENOMENAL POWER, THE MANTIS IS EXCITING BOTH ON AND OFF THE TRACK.

The successful British One Make Series, the Marcos *MANTIS* Challenge, is testament to the exceptional power, torque and handling of the road version. With a top speed in excess of 165 mph and a 0-60 mph 4.1 seconds in the optional Supercharged version, the *MANTIS* offers staggering value for money, enabling the driver to escape from the tedium, sometimes associated with everyday life. This is highlighted by Autocar Magazine:

"...I can't recall a car that brought such unbridled joy to those who ogled it."

"...It's thrilling, frightening, overwhelming and completely wonderful all at the same time."

"...No other road user is going to out-trump you with more power and performance, or turn more heads."

The road car also provides the comfort expected from a Marcos, hand-crafted to exacting standards. Available as both a Spyder

or a Coupe, the list of options is endless, enabling the cars to be tailored to the exact customer requirements, including complete colour choice for both interior and exterior, along with racing brakes upgrade and the fantastically quick Supercharger. There are a wealth of standard features included, which again proves the *MANTIS* to be exceptional value for a car of such stature.

The *MANTIS* is fast becoming one of the classic supercars and has the advantage of a racing pedigree, yet practicalities are considered with the ample boot and storage space in this hand built machine. This coupled with the excellent fuel consumption, make the *MANTIS* a car for everyday use. Marcos also encourages a special relationship between the owner and the factory, which continues long after the cars completion. The Marcos *MANTIS* is the individual's car, for the truly discerning driver.
